# Business continuity made easy

The Schneider Electric Easy UPS 3 Series is an easy-to-install, easy-to-connect, easy-to-use, and easy-to-service 10-200 kVA 3 phase UPS ideal for small and medium businesses, data centers, and other mission critical applications.

The Schneider Electric Easy UPS 3 Series brings predictability to utility costs by delivering up to 96 percent efficiency in double conversion mode and up to 99 percent efficiency in energy-saving ECO mode, thanks to its advanced product features, competitive specifications, and robust electrical design. It is exceptionally easy to install, connect, operate, maintain, and service, making it ideal for a wide range of small and medium business applications. This EcoStruxure™ Ready UPS features a wide operating temperature range and strong overload protection, all in a compact and lightweight footprint. Start-up service\* optimizes your system's performance, quality, and safety. The Easy UPS 3 Series is the easy choice for your business continuity in the data center or electrical room.

## The Easy UPS 3 Series

### Easy UPS 3S

- 10–40 kVA UPS
- With internal batteries (supplied with the UPS)
- For internal batteries\*
- For external batteries\*

### Easy UPS 3M

- 60–200 kVA UPS
- For external batteries\*

\*Several battery options and cabinet solutions available to be ordered separately

### Easy to install and start up

- Rolls into position quickly and easily
- Minimal footprint requirement with lightweight, compact form factor
- Straightforward installation
- Input, output, and bypass breakers are included
- Emergency Power Off (EPO) switch is included
- Easy Loop test verifies UPS performance before you connect your load, without the need for a load bank
- Aesthetic design blends well into your installation environment
- On-site start-up\*\* with Schneider Electric Field Service Representatives

100 kVA Easy UPS 3M  
for external batteries

40 kVA Easy UPS 3S UPS  
with internal batteries

### Typical applications

- Small and medium data centers and computer rooms
- Manufacturing facilities
- Telecommunication
- Commercial buildings
- Healthcare
- Transportation

\*\*Included with Easy UPS 3M; recommended service option for Easy UPS 3S

### Easy to use, connect, monitor, and manage

- User-friendly display interface supports easy configuration
- The optional network card enables:
  - Monitoring of UPS status remotely through a Web interface
  - Monitoring and management of the UPS status and performance through EcoStruxure IT's cloud-based and on-premise software suites, bringing you peace of mind

### Easy to maintain

- Front and side access for service
- Quickly and easily replace the dust filter conveniently located behind the front door
- Schneider Electric service team available to make service easy and improve uptime with proper maintenance of your UPS and batteries

### Easy to expand

- Parallel UPSs for capacity or redundancy:
  - Easy UPS 3S: Up to four UPSs
  - Easy UPS 3M: Up to six UPSs

### Versatile

Easy UPS 3 Series is easy to adapt for your site requirements:

- Only pay for the options you need, with upgrade kits that enhance the resilience of the UPS
- Internal\*, external, and third-party battery options
- Common battery bank: Redundant UPSs can share the same battery bank, reducing battery costs
- Extended runtime: Easy UPS 3S with internal batteries include up to 40 minutes of runtime

10 kVA Easy UPS 3S with internal batteries

40 kVA Easy UPS 3S with internal batteries

\*Available for Easy UPS 3S only

### Robust and competitive

- Easy UPS 3 Series brings predictability to utility costs:
  - Up to 96% efficiency in double conversion mode
  - Up to 99% efficiency in ECO mode
- Minimize your power losses and cooling requirements with up to unity power factor (kW=kVA)
- Protect your data center or electrical room with these fortifying features:
  - Embedded dust filter
  - Conformal coating
  - Operating temperature up to 40°C
  - Wide input voltage range

### Options

- Network card
- Temperature sensor
- Dust filter kit
- Parallel kit
- Parallel maintenance bypass panel
- Battery string
- Battery breaker box
- Battery breaker kit
- Empty classic battery cabinet
- Classic battery cabinet with batteries\*
- Modular battery cabinet\*\*
- Cable kit for adjacent installation of classic battery cabinet\*
- Start-up service option\*\*

Over

100,000

satisfied customers

### Proven performance

With an established customer base of over 100,000 satisfied customers, we have been providing business continuity around the world for more than 30 years.

The Schneider Electric Easy UPS 3 Series is the easy-to-choose, easy-to-use power protection solution for today's connected businesses.

Network card

Battery string

Parallel maintenance bypass panel

Empty battery cabinet for battery installation on-site

Modular battery cabinet for extended runtime requirements

Classic battery cabinet with factory installed long-life batteries, for quick and easy installation on-site

\*Available for Easy UPS 3M

\*\*Available for Easy UPS 3S

# Easy Monitoring, Management, and Services

When you purchase the network card, you can monitor and manage the Easy UPS 3 Series through these software suites.

## Cloud-enabled remote monitoring with EcoStruxure Asset Advisor

EcoStruxure™ Asset Advisor monitors and protects your critical equipment, providing 24x7 visibility through live data, smart alarming, and data-driven insights on the health of your connected assets directly to your smartphone. When you upgrade to EcoStruxure Asset Advisor, remote troubleshooting is provided by the experts monitoring your connected assets 24x7.

- Remote service
- Increase your data center's uptime with intelligent 24x7 monitoring and remote troubleshooting service
- Analytics
- Gain insight into how well your data center runs — receive recommendations and data-driven intelligence
- Smartphone app
- Stay connected to your data center with live data and alarms on your smartphone app

## On-premise data center infrastructure management (DCIM)

EcoStruxure IT's on-premise data center infrastructure management suite, StruxureWare™ for Data Centers, is an integrated suite of on-premise applications. It is ideal for businesses that need to manage their data centers across multiple domains. It provides actionable intelligence for an optimal balance of high availability and peak efficiency throughout the entire data center life cycle.

## Services

### Start-up services

With the Schneider Electric start-up service\* option, your equipment is properly and safely configured for optimal performance and reliability.

### Battery services

Battery service and replacement are vital components of any UPS maintenance program since one failed battery can compromise an entire system. Whether you need to replace one or all of your batteries, we can ensure they are a reliable backup.

### Maintenance services

Schneider Electric offers a comprehensive services portfolio designed to ensure your mission-critical applications receive the proper care and maintenance they need to operate at optimal levels — at all times. Maintenance services include Preventive Maintenance Service Plans and response time upgrades, where available.

### Service plans/ onsite extended warranty

Flexible service packages offer hassle-free system maintenance to improve uptime at a predictable cost. These packages provide your system with the care it needs to operate most efficiently while minimizing downtime.

## 24x7

visibility through live data, smart alarming, and data-driven insight
